

Information leaflet

Welcome to the ETZ Hospital, ETZ Elisabeth location. In the near future, you and your partner have an appointment at our Centre for Reproductive Medicine, called CVB (Centrum Voortplanting Brabant). This leaflet provides information about the practical issues of your visit. If you have any questions after reading this, please feel free to call our centre at the telephone numbers given on the back of this leaflet.

Language

If you do not speak Dutch or English, please bring someone to translate during the appointments, or organise someone to translate for you by telephone. You are responsible for understanding the given information.

ETZ Hospital, ETZ Elisabeth location

The Elisabeth Location of the ETZ Hospital is located in Tilburg at Hilvarenbeekseweg 60. Follow the signs that point to the hospital.

Is this your first visit to our hospital or do you want to change your personal data? In that situation you can park your car in the front of the hospital (P-hoofdingang).

Procedure

At the barriers, you will take a parking ticket. After your visit, you can pay at the machines located right next to the main entrance. There are three parking machines available for use. After paying, you will receive an exit ticket.

Registration

Upon entering the hospital, please register together with your partner at the Patient Registration department. The Patient Registration department is not far from the hospital's main entrance. Upon entering the hospital, proceed approximately 40 metres to your left. You must be able to present a valid passport or proof of identity and your insurance card. If you contact us by telephone, we may ask for your BSN or your patient number; be sure to have it on hand. We kindly request that you also provide the Patient Registration department with your e-mail address and mobile number.

If this is a follow-up appointment, you can park your car at the back of the hospital (P-achteringang). Follow the signs, the parking is situated at Leijweg and closer to CVB.

You can register at the registration column and after your visit you can pay at the parking machine or pay contactless at the barrier.

When medication is needed, you can pick it up at the pharmacy at the front of the hospital.

Intake interview

We would like to receive information from another hospital at least one week before the intake interview. You may return the attached questionnaire (completed) as soon as possible, in the enclosed reply envelope.

Referral letter and costs

Without a referral letter, a health insurer can refuse to pay for certain care. You are coming to us for treatment as a couple. This means that twice the amount of time will be reserved for the first consultation, and both of you can expect to be invoiced for it. This may mean that you will both be liable for your deductible (eigen risico).

Reimbursement

The reimbursement of diagnostic procedures and treatments varies per health insurance. If you have a Dutch health insurance, you will most likely be entitled to a reimbursement. If you have a foreign health insurance you will be asked to pay in advance. Check with your health insurance company about reimbursements before visiting us.

Reporting

You can report to the CVB, route 92. The CVB is located at the back of the hospital on the ground floor. Take into account the ten-minute walk from the parking lot. We advise you to show up at the hospital fifteen minutes before your appointment. This will provide sufficient time for you to register with the Patient Registration department.

Website

More information can be found on our website: www.infocvb.nl.

All attention for you

We notice that patients are increasingly bringing their child(ren) to their appointments at the CVB. We hear from other patients that they feel uncomfortable with this. The presence of children often causes unrest in the waiting area and during the appointment. As a result, there is less focus on each other in the consultation room.

We kindly ask you to arrange care for your child(ren) when you have an appointment with us. *This way, we can ensure that you receive all the attention you deserve!*
